SPECIAL DISCOUNT NEWS

In order to plan our digging for spring, we are anxious to know your tentative order for this coming spring. To help you decide now just what your needs will be, we are offering an early season discount of 5% on all orders received by March 2, 1963. Orders received during the month of March will receive 2½% discount. No early discounts will be given for orders received after March 31, 1963.

ADD 5¢ (Wooden Till) or 10¢ (Plastic Till) or 12¢ for pots if packaging is desired.

REPORT ON OUR PLANT SIZES AND QUALITY

Pitzonka's perennials and rock plants are field plants, usually 1 year or older grown in chemically treated soil to prevent losses due to insect or nematode infestations. We sell no lining out size at full-grown prices!

It has been observed that Pitzonka perennials are more uniform in their growth due to careful field cultivation, fertilization, and most modern irrigating practices.

An interesting point noticed by busy nurserymen and garden center operators is that most of our varieties are improved ones that require special propagation. You receive these superior varieties at only a slight increase of price. Your customers will enjoy the quality found in Pitzonka perennials.

1962 was a great growing year and you'll find our plants in top grade condition. Please try our full line this spring and notice the pleasure shown by your customers!
